

# pascom Receiver WLR CT-Link

## UHF Alarm receiver

The CT-Link Wireless Receiver is a UHF receiver that can be installed in Ethernet-based networks.

It receives the signals of the alarm transmitters (e.g. Tx75P) and forwards them downstream to the pascom alarmserver responsible for further processing.

### Specifications:

Colour:	Metal
Range:	~ 120 cm
Weight:	407 g
Dimensions:	173 x 111 x 32 mm
Frequency:	869 MHz
Power Supply:	24 VDC or PoE
Material:	Aluminium
Antenna:	DP75 for 869 MHz
Directives:	CE marked
