

Item No. XS-O2.RC0002K100

pascom XS.Reader with code input

Transponder reader for XS.io/XS.net control module

In combination with the XS.io/XS.net control module, the pascom XS.Reader enables secure access control to the premises.

When identifying via smartcard, maximum security guarantees the additional input of a number code.

The built-in transponder is connected to the XS.net/io control module via an RS232 or RS485 interface.
